

GO AHEAD JUMP!

Make the jump into faster pool skimming!

PARACHUTE SKIMMER™

THE PUSH BROOM FOR THE POOL

The Parachute Skimmer is a patent pending pool skimmer that you pull through the water. The top part floats and the bottom part sinks, the screen that is in between captures floating pool debris much more efficiently than a traditional skimmer and takes up less space.

Cleans your pool in a fraction of the time it takes with a traditional skimmer!

“Easy to use and great packaging for in store displays!”

Chris Landis, Pinch-A-Penny Owner

Your customers will love it because the Parachute Skimmer is fun to use. You just steer it with the guide rope. **No heavy pole.**

GO AHEAD JUMP!

Removes dog hair too!

Make the leap to 3X the surface area of a traditional pool skimmer!

This product is not to be used as a human lifesaving device. Competent supervision is required at all times. This product is not a toy. Never leave children unattended with this device.

Proudly made in the USA.

It's as easy as 1,2,3!

1) Drop it in and pull it through the water.

2) Sweep. Capture large amounts of debris with just one sweep or steer it around the pool.

3) Remove the debris. It collapses as you lift it out of the pool to capture and remove the debris.

It is the push broom for the pool

You wouldn't sweep your entire driveway with a dust pan broom why skim your pool with one?

"Great new product!"

"The customers love it!"

Steven M. Wood, Pinch-A-Penny Owner

The official skimmer of Fort Lauderdale Aquatics, home team of the Fort Lauderdale Aquatic Complex, home of the International Swimming Hall of Fame.
